THE MIDNIGHT VISITOR

NAGEEN GROUP
tamso ma jyotirgamaya

THE MIDNIGHT VISITOR

-by Robert Arthur

Summary

Meeting of Secret Agent Ausable and Writer Fowler

Ausable was a smart secret agent, but did not look like one at all, being short and very fat. Fowler was a young writer who wanted to write about Ausable and so spent an evening with him. Fowler was feeling disappointed so far, as he could not find any characteristic of a secret agent in Ausable.

Another Secret Agent Max seen with a Pistol

When both Ausable and Fowler entered Ausable's hotel room, another secret agent named Max was waiting in the room with an automatic pistol pointed at them. Max was there because he had come to know that Ausable was going to receive an important report about some new missiles that night. Max threatened to shoot if Ausable tried to act smart.

Ausable Confuses Max

To ensure the report's safety as well as his own and the writer's safety, Ausable invented a story about anybody entering his room easily through a balcony just below the window in his room. Actually, there was no balcony - if anybody climbed out from the window, he would fall to his death, as the room was on the sixth floor. However, Max told them that he had entered the room through the door using a passkey.

Max Jumps in the Non-existing Balcony and Dies

Suddenly, there was a knocking on the door and Ausable pretended that it was the local police, who had been asked to provide him extra security for the important document he was about to receive. When the knocking was repeated, Max became angry at Ausable and decided to wait in the balcony (which he thought existed until the police went away.
He stepped out of the window and fell to his death. When the door opened, a waiter came in with drinks which Ausable had ordered to be delivered to his room when he had returned to the hotel.

Conclusion of The Midnight Visitor

In the chapter - The Midnight Visitor illustrates the fact that one should not panic in a critical situation, rather stay focused to take a wise step in averting the problems with good presence of mind.

NCERT SOLUTIONS

READ AND FIND OUT

Question 1: How is Ausable different from other secret agents?

Answer: Ausable was different from other secret agents in several ways. He had a small room in the musty corridor of a gloomy French hotel that was on the sixth and top floor and it was scarcely a setting for a romantic adventure. He was a sloppy fat man with a weird accent. In spite of living in Paris for over twenty years after moving from Boston, he spoke French and German with great difficulty and had not lost touch of his American accent. Generally, a spy got messages passed secretly to him by beautiful girls, Ausable was not of that kind. He got only a routine telephone call making an appointment. These were some of the ways, he was different from the conventional notion of a secret agent. Besides, in the story we noticed how he dealt with Max by cooking up some stories and convinced him to act accordingly, so that he could get rid of Max forever.

Question 2: Who is Fowler and what is his first authentic thrill of the day?

Answer: Fowler was a young and romantic writer who had come to meet Ausable. He experienced his first authentic thrill of the day when he saw an unknown man in Ausable's room pointing a small automatic pistol towards him and Ausable.

READ AND FIND OUT

Question 1: How has Max got in?

Answer: Max had got into Ausable's room with the help of a passkey or master key.

Question 2: How does Ausable say he got in?

Answer: Ausable said that he thought Max might have got into the room through the balcony. He said grimly that it was the second time in a month that somebody had got into his room through that nuisance of a balcony.

THINK ABOUT IT

Question 1: "Ausable did not fit any description of a secret agent Fowler had ever read." What do secret agents in books and films look like, in your opinion? Discuss in groups or in class some stories or movies featuring spies, detectives and secret agents, and compare their appearance with that of Ausable in this story. (You may mention characters from fiction in languages other than English. In English fiction you may have come across Sherlock Holmes, Hercule Poirot, or Miss Marple. Have you watched any movies featuring James Bond?)

Answer: Secret agents in fiction are usually projected to be perfect gentlemen who are tall, dark and handsome with awesome speaking skills and an attractive masculine voice. They usually have well-built structures with beautiful women accompanying them. Some spies smoke a pipe (like Sherlock Holmes) or a cigar and they execute death-defying stunts just like in James Bond movies. Such movies show the use of hi-tech gadgets that help in catching the criminals and countering evil villains. Nonetheless, there are some exceptions in the above definition of detectives or spies. One such fine

NAGEEN GROUP
Tamso ma jyotirgamaya

example is the detective character named Feluda which was created by famous Bengali filmmaker, Satyajit Ray. Feluda was a tall, charming and athletic secret agent who had amazing analytical power, eagle-eyed view and superb observation skill.

Question 2: How does Ausable manage to make Max believe that there is a balcony attached to his room? Look back at his detailed description of it. What makes it a convincing story?

Answer: While talking to Fowler, Ausable created a comprehensive description of how his room was part a larger apartment and how the living room that connected through the door had a balcony. His further stated how somebody broke into his office through that balcony earlier and this made it a convincing story for Max to believe instantly. Ausable's quick wit and calm composure in such a panicky situation made it a more convincing story for Max to believe in.

Question 3: Looking back at the story, when do you think Ausable thought up his plan for getting rid of Max? Do you think he had worked out his plan in detail right from the beginning? Or did he make up a plan taking advantage of events as they happened?

Answer: No, I don't think that Ausable had thought up his plan earlier to get rid of Max. He maintained his calm composure and took advantage of events and the situation as they happened. He made up a story of the balcony outside the room to convince Max into believing him and then when there was a knock at the door, he said that he had called the police to check on him and make sure that everything was alright. All these things made Max desperate and shiver in fear. He became restless and without checking outside, he jumped out of the window.

TALK ABOUT IT

Question 1: In this story, Ausable shows great 'presence of mind,' or the ability to think quickly, and act calmly and wisely, in a situation of danger and surprise. Give examples from your own experience, or narrate a story, which shows someone's presence of mind.

Answer: This story has a resemblance to the play 'If I Were You'. A criminal held Gerrard as a hostage. However, Gerrard trapped the criminal with confidence and treated him like a guest. He convinced the criminal to run away from that place as the police was behind him. He showed the criminal the exit door for escaping which was actually a cupboard door. The criminal blindly followed Gerrard's instructions and tried exiting through the door, but was eventually trapped in the cupboard.

Question 2: Discuss what you would do in the situations described below. Remember that presence of mind comes out of a state of mental preparedness. If you have thought about possible problems or dangers, and about how to act in such situations, you have a better chance of dealing with such situations if they do arise.

- A small fire starts in your kitchen.
- A child starts to choke on a piece of food.
- An electrical appliance starts to hiss and gives out sparks.
- A bicycle knocks down a pedestrian.
- It rains continuously for more than twenty-four hours.
- A member of your family does not return home at the usual or expected time.

NAGEEN GROUP
tamso ma jyotirgamaya

You may suggest other such situations.

Answer:

1. When a small fire breaks out in the kitchen, it is advisable to use a blanket and put it over the fire to shut out the air. We should carefully observe that if the fire is not due to an electrical problem, water can be splashed on it. If it is due to some electrical short-circuit problem, all the electrical outlets in the house must be disconnected immediately so that the fire doesn't spread unnecessarily to other parts of the house.
2. The child's back should be rubbed and thumped slowly until the piece of food stuck in the food pipe is vomited out. However, in case the child finds difficulty in breathing, he/she should be given trained medical help immediately.
3. As a temporary measure, the electrical outlet connected to the appliance should be immediately disconnected by removing the plug from the socket. Later, an authorised person should be called to repair the appliance and checked thoroughly before using it again.
4. It is advisable to give some first aid to the pedestrian immediately and seek help from people around. If the person has a major injury, he/she could be rushed to the hospital immediately.
5. Excessive rains can cause floods. All necessary precautions should be taken to save all possessions from getting damaged and as a precautionary measure, it is advisable to inform the concerned authorities for necessary action.
6. Just in case a family member does not return home at the usual time, we should enquire at the place where he/she might have visited. We can check at their friend's place or any place they are likely to visit. If none of them are able to give the whereabouts of the family member, it is advisable to inform the local police and file a First Information Report (FIR) and seek help in tracking the person.

tamso ma jyotirgamaya

Chapter 3
The Midnight Visitor

Read and Find Out Pg-14

Q.1 How is Ausable different from other secret agents?

Ans.: Ausable does not fit into any description of a secret agent. He is very fat and looks like a very simple man who lives in a small room on the sixth and top floor. During the time, the author spends with Ausable in the hall there was no such event which could support his being a secret agent.

Q.2 Who is Fowler and what is his first authentic thrill of the day?
Ans.: Fowler is a young writer who wants to write a book on detectives. He comes to meet Ausable, a secret agent, to know about the experience of being a spy and the kind of life a spy has. However, he gets disappointed because Ausable does not have the appearance as that of an agent. His first authentic thrill of the day was when he saw a man standing before them in Ausable's room holding a small automatic pistol in his hand.

NAGEEN GROUP
tamso ma jyotirgamaya

Read and Find Out Pg-15

Q.1 How has Max got in?

Ans.: Max had entered Ausable's room using a passkey. He entered the room in his absence.

Q.2 How does Ausable say he got in?

Ans.: Ausable wanted to confuse Max. So he said that it was the second time in a month that somebody had got into his room through the balcony next to the window. It unfolds later that there was no such balcony and Ausable had mentioned about it just to confuse Max and make him fall into a trap.

Think About it

Q.1 "Ausable did not fit any description of a secret agent Fowler had ever read." What do secret agents in books and films look like, in your opinion? Discuss in groups or in class some stories or movies featuring spies, detectives and secret agents, and compare their appearance with that of Ausable in this story. (You may mention characters from fiction in languages other than English. In English fiction you may have come across Sherlock Holmes, Hercule Poirot, or Miss Marple. Have you watched any movies featuring James Bond?)

Ans.: According to me, secret agents in books and films look quite different. They usually wear a headgear (a cap or a hat), a long coat and gloves on their hands. They are usually portrayed with black goggles. They are quite sharp and intelligent. In the given plot when Fowler, a young writer, met Ausable, he was very disappointed because Ausable didn't fit into the description of a secret agent. His appearance was quite different. He was a dull, fat man who knew French and German languages but had a predominant American accent in his speech.

NAGEEN GROUP
tamso ma jyotirgamaya

There are many books and movies which portray detectives as very different from what Ausable has been portrayed in this plot. We can refer

to Sherlock Homes or James Bond for that matter to highlight the contrast well.

Q.2 How does Ausable manage to make Max believe that there is a balcony attached to his room? Look back at his detailed description of it. What makes it a convincing story?

Ans.: Ausable is very clever, which he should be since he is a secret spy. He wanted to get rid of Max so he put up a story about a non-existent balcony and that it was the second time in a month when somebody had entered in his room through that balcony. He told that the balcony belonged to the adjacent apartment and that his room was once a part of that unit which was why the balcony extended under his window. He put this up in such a realistic way that Max and Fowler believed him and Max tried to hide in the balcony when somebody knocked at the door.

Q.3 Looking back at the story, when do you think Ausable thought up his plan for getting rid of Max? Do you think he had worked out his plan in detail right from the beginning? Or did he make up a plan taking advantage of events as they happened?

Ans.: Ausable was a clever and intelligent secret agent. When he entered his room, he found a man with a pistol in his hand. He put up a story on the spot and narrated it with such preciseness that both Max and Fowler believed him. He did this because he wanted to deceive Max. He knew that the waiter would come to his room so when the waiter knocked at the door, he threatened Max that it were the police and that they would arrest him. Ausable had told Max that he was the second person who had entered through the balcony in that month and so he was very disappointed by the management who had yet not taken any step for it. He had so precisely

NAGEEN GROUP
tamso ma jyotirgamaya

talked about his room earlier being a part of the adjacent one which was why the balcony extended under his window. Without noticing that there was no such balcony, Max jumped from the floor as he was afraid of being caught. Ausable's presence of mind helped him get rid of Max.

Talk about it

Q.1 In this story, Ausable shows great 'presence of mind,' or the ability to think quickly, and act calmly and wisely, in a situation of danger and surprise. Give examples from your own experience, or narrate a story, which shows someone's presence of mind.

Ans.: Just like Ausable showed great 'presence of mind' or the ability to think quickly and act calmly and wisely in a situation of danger and surprise, we all must stick to our senses and wits and behave in a composed yet clever manner in times of crisis. I too remember having behaved in such a way some months back.

While playing in the park one day, one of my friends fell from the swing and was hit hard on his head. He fainted and his head started bleeding. We were five friends playing in the park and there was nobody around us. Everybody was scared and started crying. I sent one of them to that boy's place to call his parents and rushed to fetch my bag which had a water bottle in it. I sprinkled some water on my friend's face after which he regained consciousness. By this time, his parents came and they thanked me for acting wisely in such a situation and took him to the doctor timely. My parents were also very impressed with me.

NAGEEN GROUP
Tamso ma Jyotirgamaya

Q.2 Discuss what you would do in the situations described below. Remember that presence of mind comes out of a state of mental preparedness. If you have thought about possible problems or dangers, and about how to act in such situations, you have a better chance of dealing with such situations if they do arise.

(i) A small fire starts in your kitchen

(ii) A child starts to choke on a piece of food.

(iii) An electrical appliance starts to hiss and gives out sparks.

(iv) A bicycle knocks down a pedestrian.

(v) It rains continuously for more than twenty-four hours.

(vi) A member of your family does not return home at the usual or expected time.

Ans.: (i) A fire in the kitchen is the most dangerous thing one can encounter. There are many inflammable things in the kitchen specially the gas cylinder. A fire in the kitchen can cause enormous damage not just to the kitchen but to the entire household. The presence of cylinder is the most dangerous thing as it can easily catch fire and may blast. Such a burst can be of any extent claiming entire house and lives as well. In such a situation, I will first switch off the regulator and turn the knob in the off direction. I will then open all the doors and windows and switch off the main power supply of the house. I will never use water to put it off but use sand, instead.

NAGEEN GROUP
tamso ma jyotirgamaya

(ii) This can happen when the child is eating or playing. I will try and keep my cool and not panic in this situation. I will first pat on the back of the child very gently and give him some water to drink. I will keep rubbing his back until he feels better and relieved.

(iii) A sparking electrical appliance is as dangerous as a fire in the kitchen. I will cut off the main switch first. I will not touch any other switch. I will always remember to keep water away from such an appliance as it may be very dangerous and result in fire.

(iv) If a bicycle knocks down a pedestrian, I will not laugh at him. I will go to him and help him to stand. I will try and take him to the nearest clinic or hospital if he is hurt and will try to provide him first aid. If it is severe, I will call his/her parents or family.

(v) Continuous rain will cause water logging. It will make the drains over flow if good sanitation measures are not adopted. If water is not wiped out it will stand and cause breeding of mosquitoes. I will try and clean my premises and drains so that water flows on well.

(vi) If a member of my family does not return home at the usual or expected time and I am not able to communicate with him/her, I might become restless. Such a moment will scare me badly. I will first call his/her colleagues and friends. Even then if I do not get any information I will seek help from my elders and check at the place where he/she usually goes. If all attempts prove futile, I will ask my elders to lodge a police complaint immediately.

JOIN OUR WHATSAPP GROUPS

FOR FREE EDUCATIONAL RESOURCES

JOIN SCHOOL OF EDUCATORS WHATSAPP GROUPS FOR FREE EDUCATIONAL RESOURCES

We are thrilled to introduce the School of Educators WhatsApp Group, a platform designed exclusively for educators to enhance your teaching & Learning experience and learning outcomes. Here are some of the key benefits you can expect from joining our group:

BENEFITS OF SOE WHATSAPP GROUPS

- **Abundance of Content:** Members gain access to an extensive repository of educational materials tailored to their class level. This includes various formats such as PDFs, Word files, PowerPoint presentations, lesson plans, worksheets, practical tips, viva questions, reference books, smart content, curriculum details, syllabus, marking schemes, exam patterns, and blueprints. This rich assortment of resources enhances teaching and learning experiences.

- **Immediate Doubt Resolution:** The group facilitates quick clarification of doubts. Members can seek assistance by sending messages, and experts promptly respond to queries. This real-time interaction fosters a supportive learning environment where educators and students can exchange knowledge and address concerns effectively.

- **Access to Previous Years' Question Papers and Topper Answers:** The group provides access to previous years' question papers (PYQ) and exemplary answer scripts of toppers. This resource is invaluable for exam preparation, allowing individuals to familiarize themselves with the exam format, gain insights into scoring techniques, and enhance their performance in assessments.

- **Free and Unlimited Resources:** Members enjoy the benefit of accessing an array of educational resources without any cost restrictions. Whether its study materials, teaching aids, or assessment tools, the group offers an abundance of resources tailored to individual needs. This accessibility ensures that educators and students have ample support in their academic endeavors without financial constraints.

- **Instant Access to Educational Content:** SOE WhatsApp groups are a platform where teachers can access a wide range of educational content instantly. This includes study materials, notes, sample papers, reference materials, and relevant links shared by group members and moderators.

- **Timely Updates and Reminders:** SOE WhatsApp groups serve as a source of timely updates and reminders about important dates, exam schedules, syllabus changes, and academic events. Teachers can stay informed and well-prepared for upcoming assessments and activities.

- **Interactive Learning Environment:** Teachers can engage in discussions, ask questions, and seek clarifications within the group, creating an interactive learning environment. This fosters collaboration, peer learning, and knowledge sharing among group members, enhancing understanding and retention of concepts.

- **Access to Expert Guidance:** SOE WhatsApp groups are moderated by subject matter experts, teachers, or experienced educators can benefit from their guidance, expertise, and insights on various academic topics, exam strategies, and study techniques.

Join the School of Educators WhatsApp Group today and unlock a world of resources, support, and collaboration to take your teaching to new heights. To join, simply click on the group links provided below or send a message to +91-95208-77777 expressing your interest.

Together, let's empower ourselves & Our Students and inspire the next generation of learners.

Best Regards,
Team
